Product Images

Short Description

Built to last and perfect for weddings, graduations, sporting events, church functions, company events and picnics, concerts and more! Our outdoor tents for sale will accommodate your needs, your guests, and parties of all sizes.

Description

General

The tent has sloping side walls. The white tent roof has a trap with a wavy edge and is made of PVC-coated polyester fabric. Corner curtains are sewn onto all 4 corners to cover the support poles. The gable walls can be unhinged and each has an entrance with a toggle fastener. The side walls are removable in one section. The walls are available either in white or in a striped design, the mud flaps are always white.

Frame system

Frame

The frame is made of longitudinally welded anodized aluminum tubes, with a diameter of 40 mm, wall thickness of 1.5 mm, made of AL Mg 4.5 Mn.

Connectors

Tube connections (gussets) and base plates are made of aluminum.

Anchoring

Round steel pegs and T-profile pegs as well as tent pegs profile steel with hooks (only for inner tents) for fastening the tent to the ground, resistant galvanized.

Tent skin

Tent skin made of double-sided PVC-coated polyester fabric (white and striped design: 650 g/m²); Flame retardant in accordance with DIN 4102 B1 or M2, waterproof and rot-resistant. The mud flaps are made of the same material as the roof and are always white.
