

## AZF 6-33 self-erecting tents with fully inflatable frame

### Product Images

---

### Short Description

---

Ready to use within minutes, the AZF series is the ideal solution for all emergency situations. Durable, they can be efficiently deployed on any type of terrain.

### Description

---

#### Frame

Main beams and ridge beams inflatable, made of airtight double-sided PVC coated polyester fabric [1,100 g/m<sup>2</sup>], fixed to the cover and floor. Eaves purlins made of aluminium. Easy replacement of cover and frame. The tents can be set up in 4-7 minutes, depending of the tent size. A pressure relief valve prevents excessive pressure in the frame.

**Tent skin**

Tent skin is made of double-sided PVC coated polyester fabric [750 g/m²]; flame resistant, waterproof and mildew resistant.

**Floor**

Floor covering of double-sided PVC coated polyester fabric [750 g/m²]. Available with non-slip embossing as option [850 g/m²].  
Other colors available on request.
