

Shower cubicle 1x1

Product Images

Short Description

This easy to set-up shower cubicle doesn't require special skills or tools for set-up and can be ready to use in minutes.

Description

Providing access to safe and reliable sanitation facilities is crucial for the health and well-being of people in remote areas. Our portable shower system offers a practical and efficient solution for meeting this essential need.

Key Features:

- **Durability and Reliability:** Built with robust materials and a sturdy design, the shower system withstands challenging

environments and frequent use.

- Versatility and Compactness: Fits in confined spaces while offering adequate showering area, ideal for densely populated camps.
- Non-Slip Safety: Integrated floor tiles ensure user safety and stability in wet conditions.
- Efficient Water Management: Utilizes NITO and GEKA connections for quick and hassle-free water supply and drainage.
- Temperature Control: Options for mixing tap or separate hot and cold water taps cater to diverse user preferences.
- Easy Maintenance: Simple cleaning and disinfection procedures with clear instructions for camp management and users.

Benefits:

- Improves hygiene and sanitation standards: Promotes individual and community health.
- Reduces water usage: Efficient design minimizes water consumption, a valuable resource in remote areas.
- Promotes dignity and well-being: Provides a crucial amenity for a sense of normalcy and privacy.
- Easy deployment and operation: Minimal training is required for setting up and maintaining the system.
- Modular and scalable: Adaptable to different camp sizes and configurations.
- Through the use of ECO shower heads (optional), you are able to limit the amount of water regarding your needs.

This portable shower system is a valuable tool for organizations working to ensure the health and dignity of populations in challenging environments.
